The Event Centre will be at Acron Oval, located on Acron Road in St Ives. All events will start and finish at the Event Centre.

The best way to get to the Event is by car or bicycle. Parking is available in the residential streets surrounding Acron Oval. Please do not park illegally or across driveways. Due to the popularity of the event, parking can be at a premium and it is recommended that you leave yourself enough time to walk from your car to the Oval and get registered before your race.

There are limited public transport options to the Event Centre. The closest bus stop operating a service on event day is at Mona Vale Road and Douglas Street and is serviced by the number 196 bus from Macquarie Park or Gordon Stations.

- Please note, many of the registered participants will have received their race number (with timing chip) in the post.
- If you received your race number in the post, you are ready to race. You do not have to attend registration on race morning – you can proceed directly to the start line.
 - ✓ **MAKE SURE TO BRING YOUR RACE NUMBER TO THE EVENT – DO NOT LEAVE IT ON THE KITCHEN TABLE AS WE WILL NOT BE ABLE TO ISSUE NEW NUMBERS TO THOSE THAT HAVE BEEN POSTED OUT.**
- If you did not receive a race number in the post, you can collect your number and timing chip at registration on the morning of the event.
- The registration desk will be located on Acron Oval – follow the registration signs.
- When you report to registration, please provide the registration official with your name. The official will check your name against the competitor list and issue you with your race number (with attached timing tag) and safety pins.

6. **ENTRY TRANSFERS**

- **All entry transfers (taking over an entry from another person) should be made at registration on event day.**
- Replacement competitors are required to bring the registration details and written evidence from the original competitor stating that they agree to the transfer taking place.
- **Event day transfers will incur a \$20 admin fee** (credit/debit card payment preferred) and competitors should allow extra time to complete registration.
- Exchange of funds for race entry fees will be a private transaction between the two runners.

7. **CATEGORY CHANGES**

- **Category (course distance) changes should be made at registration on event day.**
- Competitors changing their entry to a more expensive category will be required to pay the difference in entry fee together with a \$20 administration fee (credit/debit card payment preferred).
- Competitors changing their entry to a less expensive category will be required to pay a \$20 administration fee. No refunds will be made for category changes where the entry fee is lower than what has already been paid.

8. START LINE PROCEDURE

- Each race category (distance) will start in one group.
- For categories with large numbers, we may break this into a couple of waves to spread out the field – don't worry, your race time is taken from when you cross the start line.
- Family units running the same distance who wish to run together can form a group to leave at the same time.
- The start line is self-seeded, you can fall into the start procedure at any time during your category start window.
- Please follow the instructions of the start line marshals who will guide you through.
- Start times as follows:
 - > **20km:** 7:00am
 - > **12km:** 7:30am
 - > **6km:** 8:00am
 - > **2km:** 9:00am

9. TIMING

A timing chip will be attached to the back of your race number, and this will record your start and finish time as you run across the timing mat, enabling your race time to be calculated. For the chip to work, you must wear the race number on the front of your body, attached with safety pins or a race belt. You should take care to not bend or fold your timing chip. The timing chip is disposable and does not need to be returned.

If you withdraw from the race at any time, please see the event staff and advise them of your withdrawal.

10. COURSE MARKING

The course will be marked using arrows, signs, and coloured tape. Please be aware that some junctions serve different race distances and care should be taken to ensure you are following the correct course. Marshalls will be stationed at all major junctions to assist you.

The [event website](#) contains detailed maps and course profiles of each course.

11. WATER STATIONS

3 water stations will be available on the course and accessible to 6km, 12km and 20km runners. They will be located at the following distances:
